REPORT OF THE COLLEGE COMMITTEE.

STUDENTS AND FEES.

SESSION 1918-1919.

The number of Students, other than Evening and Vacation Students, who registered during the Session 1918–19 was 1644 (including 10 Refugee Students and 200 Officers and men of H.M. Military Forces and the American Expeditionary Force), being an increase of 842 as compared with the preceding Session. The number of Evening Students was 260, being an increase of 58 as compared with the previous Session; 144 Students attended the Vacation Courses, as compared with 67 in the previous Session. Adding these together, the total is 2048 (including 10 Refugee Students), being an increase of 977 on the previous year. The Students were distributed as follows:—

(The numbers in brackets indicate the Refugee Students included in the totals.)

	Men.	Women.	Total.
I. Faculty of Arts	238 (2)	186 (1)	424 (3)
Department of Fine Arts	80	212	292
II. Faculty of Science	121	44	165
III. Faculty of Medical Sciences ..	117 (4)	77 (1)	194 (5)
IV. Faculty of Engineering	96 (2)	2	98 (2)
V. Faculty of Laws	17	1	18
VI. Post-Graduate and Research..	188	65	253
VII. Members of Military Forces:			
(*a*) H.M. Overseas Expeditionary Forces	71	—	71
(*b*) American Expeditionary Force	129	—	129
	1057 (8)	587 (2)	1644 (10)
VIII. Evening:			
Arts	57	203	260
IX. Vacation	34	110	144
Total	1148 (8)	900 (2)	2048 (10)

There were 563 registered Internal Students of the University compared with 326 in the previous year.

The geographical districts from which the Students came are given in Appendix I. (see p. 50).

The total fees available for the service of the Session 1918–19 amounted to £26,304 13*s.* 9*d.*, an increase of £12,723 1*s.* 8*d.* on the previous Session.

THE CURRENT SESSION (1919–20).

The number of Students who have completed their registration and paid fees up to January 31st, 1920, is 2262, as compared with 1213 (of whom 4 were Refugee Students) at the corresponding date in 1919, which is an increase of 1049 as compared with 1919, and an increase, as compared with the corresponding date in 1914, of 918.

The fee revenue (including fees of London County Council and Board of Education Students) to January 31st, 1920, amounts to £39,200 0*s.* 0*d.*, showing an increase of £22,808 0*s.* 0*d.* as compared with the corresponding date in 1919 and an increase of £17,595 0*s.* 0*d.* as compared with the corresponding date in 1914.

GENERAL FINANCES.

Financial Year 1918–19.

The Accounts for the year (1918–19) are appended to this Report (Appendix VI., pp. 73–87).

College Establishment Income and Expenditure Account.

Income.—The ordinary income was £75,613 9*s.* 3*d.* as compared with £55,785 9*s.* 11*d.* in 1917–18, an increase of £19,827 19*s.* 4*d.*

Expenditure.—The ordinary expenditure was £77,824 8*s.* 1*d.* as compared with £62,482 10*s.* 7*d.* in 1917–18, an increase of £15,341 17*s.* 6*d.* The excess of ordinary expenditure over ordinary income for 1918–19 was, therefore, £2,210 18*s.* 10*d.*

The Treasury Grant, originally fixed for the quinquennium 1910–1915 at £16,000 a year, was maintained at that figure throughout the War and until March 31st last. The two other Government Grants, for the Superannuation and Pension Funds (£950) and for Professional Education (£3,700) were likewise maintained to the same date. The question of revising the grants was considered by the Board of Education Committee early in 1919, on the basis of representations made by a deputation from all the Universities of the United Kingdom. An interim revision of grants was made for the Government financial year 1919–20, under which the College will receive a block grant of £39,000 in place of the three previous grants aggregating £20,650. One-quarter of this new grant, namely £9,750, appears therefore in the income for the year 1918–19, forming part of the total £23,979 3*s.* 4*d.*

The Treasury also made a special non-recurring grant of £20,000 towards meeting expenditure deferred owing to the War: £10,000 was received in the year 1918–19; the other £10,000 will be received in the current financial year. Of the first £10,000, £6,700 was taken into Income towards meeting deficiencies for the years 1917–18 and 1918–19 and the balance carried forward to the year 1919–20 to be expended, in accordance with the recommendations of the College Committee approved by the Senate, for the following purposes:—Repairs and General Maintenance of Buildings, Re-wiring of North Wing, Re-heating of North Wing, Departmental Apparatus, the Libraries, and the additional cost of the Sculpture Studios owing to the work being deferred.

The net accumulated deficiency on the Income and Expenditure Account at 31st August, 1919, was thus reduced to £2,207 19*s.* 6*d.*, as shown by the audited Accounts (see Appendix VI., p. 77).

The *Grants* from the Treasury, the Board of Education, the London County Council, the Surrey County Council, and other bodies, are set out in the Accounts. It will be seen (see Appendix II., p. 51) that they amount to £43,353 3*s.* 4*d.* out of a total revenue of £75,613 9*s.* 3*d.*, while the amount of fees paid by Students is £26,304 13*s.* 9*d.* This shows how greatly the cost of the educational work done by the College exceeds the amount of fees paid by students.

Subscriptions and Donations (see Appendix II., pp. 51, 52) amounted to £1,454 7*s.* 11*d.*, of which £33 3*s.* 0*d.* was for general purposes.

The General Balance Sheet.

Two items appear in the Balance Sheet for the first time, namely: (i.) £98,588 19*s.* 0*d.*, the amount provided to date towards the cost of the site, building, and equipment of the New Chemistry Laboratories, the actual expenditure being £102,532 0*s.* 7*d.*—the difference of £3,943 1*s.* 7*d.* has still to be raised; (ii.) £2,504 7*s.* 10*d.*, being the cost of the general improvements to the heating plant to date. The cost of the Architecture and Eugenics Buildings will be brought into account in the next Report.

The Current Financial Year.

Estimates 1919–20.

The estimates for the current financial year have been approved by the Senate and show an anticipated excess of expenditure over income amounting to £1,757, making with the excess of expenditure over income brought forward from 1918–19 (£2,207) a total deficit of £3,964.

Owing to the continual fluctuation in prices, especially of scientific apparatus, and to the necessity of re-equipping most of the departments with apparatus, it is extremely difficult to forecast accurately the financial results of the year. Moreover, although it has been possible to make some increase in the salaries of the members of the academic and administrative staffs and in the wages of the domestic staff, those salaries and wages are still inadequate, more particularly in view of the prevailing cost of living. For the purpose of the estimates, the Treasury Grant has been taken at the sum of £39,000. In view, however, of the very large developments in the College buildings and the consequent growth in its staff, a further increase in the Treasury Grant may be expected. A new University Grants Committee, with Sir William McCormick as its chairman, has been established to consider the needs of the Universities and University Institutions of the whole kingdom. The College was visited by this Committee on 26th January.

Members of the College will remember that in assessing the claims to Government Grants the Treasury always has regard to the amount of local effort. While recording their appreciation of the help that the Fellows and friends of the College have given in providing special donations to meet the difficulties of the last few years, the Committee desire again to invite them to assist at this critical time.

Additional funds are needed for general purposes, and very urgently for the completion of the Chemistry Laboratories. The work of raising funds for these Laboratories was interrupted by the outbreak of War and has not been completed. The following is the present position:—

	£ s. d.	£ s. d.
(i.) Excess of expenditure over subscriptions	3,943 0 0	
(ii.) Equipment of Physical and Electrical Chemistry Laboratory	10,000 0 0	
(iii.) Development of Research Work	6,000 0 0	
	19,943 0 0	
Promised by Sir Ralph Forster on condition that the remainder of the sum required is raised £5,000 0 0		
Other gifts received 1,161 14 0		
	6,161 14 0	
Balance to be raised		£13,781 6 0

With the authority of the Senate, the Equipment and Endowment Fund Committee, under the presidency of H.R.H. Prince Arthur of Connaught, have issued an appeal for the sum of £100,000 towards the completion of the south-west wing for the School of Engineering and for the re-equipment of the Engineering Departments. Towards this, a sum of £20,549 1*s.* 7*d.* has already been raised in promises and gifts with a further contingent gift of £10,000 (see also p. 34). The completion of this fund is an urgent necessity in the interests of Engineering education.

THE COLLEGE COMMITTEE.

It is with great satisfaction that the Committee record that the health of their Chairman (The Rt. Hon. Lord Reay) has been sufficiently restored to enable him to resume attendance at their meetings. They desire to congratulate him upon his Eightieth Birthday.

Reference was made in the last Report to Sir Edward Busk's impending retirement from the College Committee. This took effect at the end of February 1919. The Committee desire to place on record their appreciation of the services rendered by Sir Edward Busk and their thanks for his regular attention to College matters. He has been succeeded in the Vice-Chairmanship by Dr. J. Bourne Benson, whose knowledge of the affairs of the College and deep interest in its welfare make his counsel and guidance invaluable.

As Mr. Schuster was still on Active Service at the opening of the Committee year, Mr. Keene was re-elected Acting-Treasurer. He has given his time and experience most generously in guiding the financial affairs of the College during the exceptionally difficult years of the War.

Lord Carmichael was appointed a member of the Committee for the current year. Lord Herschell was re-appointed a member, but his other engagements have made it impossible for him to attend meetings, and he has consequently found it necessary to resign his seat as from last November. Sir John R. Bradford, who has recently returned from his long War service, has been appointed to fill his place.

Mr. E. de Quincey Quincey was appointed the representative of the Drapers' Company on the Committee, *vice* Mr. Fellows Pearson, whose death was recorded in the last Report.

Professor Starling was appointed one of the representatives of the Professorial Board on the Committee *vice* Professor Bayliss retired.

Professor Petrie was obliged to resign his seat in November 1919, and Professor Butler was appointed in his stead.

REPRESENTATIVES.

The Senate have re-appointed the following Representatives in respect of University College:—

Dr. Cooper on the Governing Body of Hampton Grammar School.

Dr. C. F. Hardie on the Governing Body of Queen Elizabeth's Grammar School, Barnet.

Professor W. P. Ker on the Governing Body of the Stepney and Bow Foundation.

The Provost (Sir Gregory Foster) and Mr. Andrew Taylor on the Architectural Education Committee.

Dr. Walter W. Seton on the Central Council of the Federated Superannuation System.

Dr. Samuel Smiles on the Governing Body of the Sutton County School for Boys. Dr. Smiles has since resigned this appointment on leaving London, and the Senate have appointed Mr. A. W. G. Randall as representative in his stead.

The Provost (Sir Gregory Foster), the Sub-Dean of the Faculty of Arts (Mr. L. Solomon), and Professor W. M. Bayliss (in respect of the Faculty of Medical Sciences) represent the College Committee on the London Intercollegiate Scholarships Board.

The Provost (Sir Gregory Foster), Dr. F. W. Goodbody and Mr. Raymond Johnson represent the College Committee on the Committee of Management of University College Hall.

The Provost (Sir Gregory Foster) has been nominated as the representative of the College Committee on the Council of College Hall, London.

The following have represented the Committee at the various Conferences named:—

The Provost (Sir Gregory Foster) and Professor M. J. M. Hill at the Conference on Educational Problems arranged by the Chief of General Staff (War Office).

The Provost (Sir Gregory Foster) and Mr. Ormsby at the Conference of Appointed and Recognized Teachers on Superannuation Schemes for University Teachers (July 1919).

The Tutor to Women Students (Miss Winifred Smith) and Miss Murray at the Conference held under the auspices of the Federation of University Women.

Professor Kenwood at the Conference of the Royal Sanitary Institute held at Newcastle-on-Tyne in July and August 1919.

Professor Richardson at a Conference between Representatives of the Royal Institute of British Architects, the Architectural Association, the London County Council, and the Board of Education.

PERSONS CONNECTED WITH THE COLLEGE DECEASED.

The College Committee record with regret the death of the following persons connected with the College:—

Dr. Carey Foster (Emeritus Professor of Physics, Fellow and former Principal of the College).

The following is the Resolution of the College Committee passed at their meeting on 4th March, 1919:—

By the death of Professor George Carey Foster, D.Sc., F.R.S., on 9th February, 1919, in his 84th year, University College has lost a distinguished and devoted friend, who, throughout his

long life, identified himself with the work and interests of the College.

Born in 1835, he entered University College as a student in 1852, and joined the academic staff of the College in 1865 as Professor of Physics, holding the Chair for 33 years.

As a member of the College Senate and from time to time of the Council of the College during those years, and afterwards as first Principal of the College, and, until his increasing deafness compelled his retirement in his 80th year, as a member of the College Council, he took a very active part and rendered invaluable service in the conduct of its affairs on the administrative as well as the academic side.

In 1894 his tenure of the Chair of Physics was commemorated by the erection in the East Quadrangle of the Carey Foster Laboratory for research work in Physics.

Professor Carey Foster took the deepest interest in the origin and growth of the College and its incorporation with the University of London, and in all who by work or wealth promoted its development. His acquaintance with its history and traditions, of which he wrote the account now prefixed to the College Calendar, was unique.

The sweetness of his disposition and his ever-ready sympathy and help endeared him to all with whom his duties brought him into contact. His pupils and colleagues mourn the passing of a personal friend.

The University College Committee desire to tender to Professor Carey Foster's family their deep sympathy with them in the loss of a life so valuable and so beloved.

[The College was represented at the Funeral by :—The then Dean of the Faculty of Medical Sciences (Professor Sir George Thane), the Quain Professor of Physics (Professor W. H. Bragg), the Quain Professor of English (Professor W. P. Ker), the Tutor to Women Students (Miss Winifred Smith), the President of the Old Students' Association (Dr. R. W. Chambers), Professor M. J. M. Hill, and Mr. N. Eumorfopoulos (representing the Union Society).]

Mr. W. C. Knight Clowes and Sir Henry Hepburn (former Governors).

Dr. W. T. Edwards and Dr. Palemon Best (former Life-Governors).

Mr. J. W. Neill (Professor of Indian Law, Lecturer in History of India, Reader in Marathi, Censor of Indian School from 1896 until transfer of Departments to School of Oriental Studies in Session 1916–17 ; former Life-Governor.)

Sir William Osler, Bt., Regius Professor of Medicine, Oxford (postgraduate student in the Faculty of Medicine, who entered in 1872).

WAR RECORD.

The final edition of the *Pro Patria*, including the Roll of Honour and Service List, is in preparation. Friends are asked to assist by sending particulars of the War services of any members of the College known to them. It is proposed to issue with the final addition of the *Pro Patria* a summary record of other War services rendered

by the College generally. A *résumé* of the contribution of the scientific departments is appended to the Provost's Report at the end of last session and will be found in the Calendar for the current year.

WAR MEMORIAL.

The scheme for the joint War Memorial of University College and University College Hospital and Medical School is as follows:—

A. (i.) A War Memorial Album.
(ii.) Memorial Tablets.
(iii.) Scholarships.
B. A Great Hall for the use of the College and Medical School.
C. The Endowment of University College Hall, Ealing.

The full sum required to give effect to this scheme is £30,000. The response to the Appeal that has been issued is now nearly £5,000. This figure includes a sum of £1,000 (less duty) left as a bequest of the late Captain William Howard Lister to the portion of the Memorial Scheme relating to the endowment of University College Hall, Ealing.

It is earnestly hoped that the scheme may not be hampered by lack of funds and that all those interested in the future welfare of the College and proud of its record in the past, more especially in relation to the Great War, will not lose this opportunity of contributing to a worthy Memorial of those of the College community who have given their lives in the fight for freedom.

The Chancellor (the Rt. Hon. the Earl of Rosebery) is Patron of the Fund, Lord Reay, President, the Provost (Sir Gregory Foster), Chairman, and Mr. Wedgwood Benn (Fellow), Hon. Treasurer.

FELLOWS.

The following have been elected to the Fellowship of the College:—

Frederick James Fitzmaurice Barrington, M.S., F.R.C.S, Assistant Surgeon, Surgical Unit, University College Hospital; Wellesley Curram Clinton, B.Sc., M.Inst.C.E., Assistant Professor in the Department of Electrical Engineering and Sub-Dean of the Faculty of Engineering; Ethel M. Elderton, Galton Research Fellow in the Department of Applied Statistics and Eugenics; Brig.-Gen. Sir Alexander Gibb, K.B.E., C.B., M.I.C.E., M.I.M.E., A.I.N.A., F.R.S. Edinburgh, Chairman of Eastern, Gibb & Son, Ltd., Contractors for the Construction of H.M. Dockyard, Rosyth, Chief Engineer Ports Construction to British Armies in Belgium, 1916–1918; His Excellency Yuen Hsu, Jevons Memorial Scholar 1910–1912, Councillor of the Cabinet of the Republic of China and Member of the President's Financial Council; Augustus E. John, President of the National Portrait Society, Member of the Royal Cambrian Academy; Major Sir William Orpen, K.B.E., R.A., R.I., Member of International Society, New English Art Club, Royal Society of Portrait Painters, National Portrait Society; Thomas Henry Craig Stevenson, M.D., M.R.C.S., L.R.C.P., Fell.Soc.M.O.H., Fellow and Joint Secretary Royal Statistical Society; Ethel Nancy Thomas, D.Sc., Lecturer in the Department of Botany, Keeper of the Department of Botany, National Museum of Wales.

CIVIL HONOURS AND APPOINTMENTS.

A. Former Students and other Persons connected with the College.

The following are among the Honours and Appointments of which information has been received :—

New Year's Honour, 1919 [published April, 1919] : —

Layton, Mr. W. T., C.B.E. (Fellow).	Companion of Honour.

King's Birthday Honour, 1919 :—

Gollancz, Professor Israel (Former Quain Student).	Knight.

New Year's Honour, 1920 :—

Sir Bertrand Dawson (Former Student).	Baron.

Order of the British Empire:—

Bradford, Professor Sir John R. (Fellow; Member of College Committee).	C.B.E.
Elliott, Dr. T. R. (Former Student).	C.B.E.
Gray, Dr. A. M. H. (Fellow).	C.B.E.

Allmand, Dr. (Former Student).	Chair of Chemistry at King's College, London.
Barrington, Mr. F. J. F. (Fellow).	Assistant Surgeon, Surgical Unit, University College Hospital.
Bayliss, Professor W. M.	Copley Medal of Royal Society "for Contributions to the knowledge of General Physiology and Bio-Physics."
Benns, Mr. L. C. (Former Student).	Lecturer in History, University of Hong Kong.
Bragg, Professor W. H.	Honorary Degree of D.Sc., University of Leeds.
Buckmaster, Dr. G. A.	Chair of Physiology, University of Bristol.
Carey, Miss Nellie (Former Student).	Carpenter Medal for a Thesis entitled "Factors in the Mental Processes of School Children."

Coker, Professor E. G.	Member of a Committee of the Department of Scientific and Industrial Research appointed to investigate the question of cylinders for the storage and transport of compressed gases other than Acetylene.
Derry, Dr. D. E. (Demonstrator and Lecturer in Anatomy).	Chair of Anatomy in Medical School at Cairo.
Elliott, Dr. J. R.	Director, Medical Unit, University College Hospital.
Gardner, Professor Ernest.	Charles Eliot Norton Memorial Lecturer in U.S.A. (Appointed by Archæological Institute of America.)
Goudie, Mr. W. J.	Degree of Doctor of Science (Engineering) of the University of Glasgow. Reader in Heat Engines, University of Glasgow.
Gunn, Major J. W. C. (Assistant in Department of Pharmacology).	Chair of Pharmacology, University of South Africa, Cape Town.
Hett, Miss Mary (Assistant, Dept. of Zoology).	Professor of Biology, Lady Hardinge Medical College, Delhi.
Johnston, Mr. T. B.	Chair of Anatomy at Guy's Hospital Medical School.
Ker, Professor W. P.	Member of Government Committee appointed to enquire into the position of the Teaching of the Classics in the Educational System of Great Britain.
Lewis, Dr. Thomas (Former Student).	William Julius Mickle Fellowship "in recognition of important work which he has carried out on the nervous mechanism of the heart."
Lilley, Miss M. S. (Fellow).	Principal of Bingley Training College, Yorks.
Macdonell, Professor Sir John	Chairman of Sub-Committee for offences at Sea and in the Air of Committee of Enquiry into Breaches of the Laws of War.
Martin, Mr. E. K. (Fellow).	Assistant to Director, Surgical Unit, University College Hospital.
Matthews, Professor E. R.	Member of Inter-allied Commission dealing with rebuilding of towns and villages in Belgium.
Morgan, Professor J. H.	Chairman of Sub-Committee on Law of Committee of Enquiry into Breaches of the Laws of War.

Newton, Dr. A. P. (Lecturer in American and Colonial History).	Rhodes Chair of Imperial History at King's College, London.
Offor, Mr. R. (Former Student and Assistant Librarian).	Librarian at Leeds University.
Plimmer, Dr. R. H. (Fellow).	Bio-Chemist and Head of the Bio-Chemistry Department, Craibstone Research Institute for Animal Nutrition.
Plucknett, Mr. T. F. T. (Former Student).	(*a*) Alexander Prize of Royal Historical Society for 1918, for an Essay on "The Place of the Council in the 15th Century." (*b*) Research Exhibition of £50 a year for two years at Emmanuel College, Cambridge.
Pollard, Professor A. F.	Member of Royal Commission on Historical Manuscripts.
Rankine, Dr. A. O. (Fellow; Assistant, Dept. of Physics).	Professor of Physics, Imperial College of Science and Technology.
Reid, Dr. Rachel (Fellow)	District Inspector under London County Council.
Seton, Dr. Walter (Fellow).	Gold Cross of the Order of the Redeemer (Greece) with the rank of Officer.
Simpson, Professor F. M.	Title of Emeritus Professor of Architecture.
Smiles, Dr. Samuel (Fellow).	Chair of Chemistry, Armstrong College, University of Durham.
Soddy, Professor F. (Former Student).	Chair of Chemistry, University of Oxford.
Thane, Professor Sir George	Title of Emeritus Professor of Anatomy.
Thornley, Miss Isobel (Student).	Lecturer in History at East London College.
Wallis, Mr. Leonard G. (Former Student).	Open History Scholarship at Christ's College, Cambridge.
Walshe, Dr. F. M. R.	Assistant to Director, Medical Unit, University College Hospital.
White, Miss Edna F. (Student).	Alexander Prize of Royal Historical Society, 1919.
Willoughby, Dr. L. A. (Former Student).	Lectureship in German, University of Sheffield.

Mr. E. Barnard, Assistant Engineer in the Public Works Dept., India Office; Mr. T. J. Drakeley. Head of Chemical Department at Northern Polytechnic; Mr. Harold J. Page, Head of Chemical Department of Royal Horticultural Society's Research Station at Wisley, Surrey.

* There are now no Honours at the Intermediate stage for Internal Students.

† The work for the final stages of these degrees was done at University College Hospital Medical School.

THE COLLEGE SITE AND BUILDINGS.

A further step in the development of the College Site was taken shortly after the close of the financial year. Nos. 124 and 126 Gower Street, being two of the seven houses fronting on Gower Street and abutting on the South Quadrangle, were in the market, and were acquired for the sum of £6,322 18*s.* 4*d.* (including costs). For this purpose, a loan has been temporarily arranged with the Bankers.

The site of these houses was essential for the development of the College and for the erection of a new building for the Department of Anatomy. The plans for the new building, which will adjoin the Institutes of Physiology and Pharmacology already built, will shortly be prepared and a report issued thereon.

It will be remembered that the new building for the Department of Applied Statistics and Eugenics, including the Galton and Biometric Laboratories, was approaching completion when the War broke out in 1914. The orders that had been given for the equipment were stopped and the building was lent to the Hospital to provide accommodation for wounded soldiers and sailors. With some slight alterations it served this purpose admirably. The Hospital gave up occupation in March last. One floor of the building was ready for Professor Pearson and his staff in October. The whole building is now finished, but is still waiting for the completion of its equipment. The cost of the equipment is more than three times what it would have been in 1914. Pending the raising of the necessary funds for this purpose, it will not be possible to make full use of the space provided as part of the munificent gift of Sir Herbert Bartlett, Bt.

Another portion of Sir Herbert Bartlett's gift provided the greater part of the funds required for the reconstruction of the old Chemistry Laboratory for the Sculpture Studios. This was carried out in the Long Vacation, and work began in the new Studios at the opening of the session.

The lease of No. 21 Gordon Square has been acquired to provide additional accommodation for the departments of the Faculty of Arts. It is known as the Arts Annexe. Direct access is obtained from the College grounds.

Members of the College are invited to inspect these new buildings

BENEFACTIONS AND DONATIONS.

The College Committee have to record the following Benefactions, of which they make grateful acknowledgment:—

The Worshipful Company of Drapers have renewed their grant for the Biometric Laboratory for the years 1920 and 1921 at the increased rate of £500 per annum.

The Chadwick Trustees have renewed for three years as from 1st September, 1919, their grant of £250 "for the Promotion of Sanitary Science in connection with the Departments of Municipal Engineering and Hygiene."

The Carnegie Trustees have made a grant to the newly-instituted School of Librarianship of £7,500, payable in five yearly instalments of £1,500.

The Library Association have expressed their readiness to hand over their library to the College for use in connection with the School of Librarianship. It has been accepted and the necessary accommodation is being provided in the Arts Annexe. Sir John MacAlister has promised Twelve Guineas as a prize in connection with the School of Librarianship.

The Department of Scientific and Industrial Research has made grants to members of the staff and research students of the following departments:—Applied Statistics, Applied Mathematics and Mechanics, Chemistry, Geology, Palæobotany, Physics, Zoology, Electrical Engineering, and Mechanical Engineering.

The Rhodes Trustees have made a grant of £150 a year for three years to promote the work of the Chair of Constitutional Law especially in relation to the Laws of the Dominions and the Empire.

The Rt. Hon. Lord Cowdray has promised £10,000 towards the Fund for the Reconstruction and Re-equipment of the Engineering Buildings with the promise of a further £10,000 when the total sum collected reaches £70,000. His generous action has greatly facilitated the efforts of the Committee charged with the raising of the Fund (see also p. 17).

Mr. Kenneth Hawksley and other members of the family of the late Mr. Charles Hawksley have promised £3,000 for the Charles Hawksley Hydraulic Laboratory that is to form part of the scheme for the development of the Engineering School.

The Ramsay Memorial Committee have made a contingent offer of a sum of not less than £25,000 towards the proposed Ramsay Memorial Laboratory of Chemical Engineering. The Senate, in accepting this offer, have intimated that they are prepared to allot for the purpose of the Laboratory a site in close proximity to the existing Engineering Buildings, provided that the remainder of the sum necessary for the erection, equipment, and maintenance of the Laboratory be available either from the Ramsay Memorial Fund or from other sources.

The Carnegie Endowment for International Peace have offered to present a Reference Library of Books on American Law, American History, and American Public Administration and Economic Life, the books to be "so placed and administered as to be freely open to consultation on the most generous terms at all reasonable hours by students, journalists, and public men." This offer has been gratefully accepted by the Senate. The special accommodation that will be required for the housing of this Library is under the consideration of the Committee.

Mr. George Samuel Baker has transferred to the University £500 Five Per Cent. War Stock 1929–47 for the foundation of the Sarah M. Baker Prize in Botanical Research in memory of his daughter, formerly Quain Student in Botany.

The Rt. Hon. Lord Leverhulme has resumed the award of the Lever Prizes in Architecture and Town Planning (suspended during the War) as from the end of last session.

Professor Tonks has promised a donation of £100 towards teaching in Decoration in the Slade School.

The bequest of the late Professor L. F. Vernon Harcourt of £200 "to be applied for a yearly prize in Civil Engineering in addition to

others ordinarily given," became payable on the death of his widow in August 1919. It has been accepted on the terms stated.

Further gifts include the following:—From the Royal Air Force, Four German Aeroplane Engines and an Albatross without an Engine (for the Department of Engineering); from the Albion Motor Car Company (Glasgow), a 25-H.P. Motor Car Engine and a 4-cylinder Albion Commercial Vehicle Engine; from Miss Marion Chadwick, a small water-colour portrait of Jeremy Bentham, three framed engravings of Mr. Dawson, Mr. John Smeaton, C.E., and Mr. James Brindley, some rough notes by Bentham, and a duplicate of his will; from Dr. Talfourd Ely, two collections of Plaster Casts—one of casts of the Frieze of the Parthenon, formerly belonging to Mr. Edwin Field, the other of casts of the Amazon Frieze from the Temple of Apollo at Bassae; from Mr. A. P. Graves (through Professor Murison), five volumes of papers by the late Professor J. T. Graves; from Sir George Grierson, twenty Gramophone Records of the Languages of Burma for the Phonetics Laboratory; from Miss Joyce Smith (the artist) and Professor Tonks, a portrait of Emeritus Professor F. M. Simpson.

Gifts of books are recorded on pp. 46–47 in the section of the Report relating to the Libraries.

THE LORD LISTER MEMORIAL.

The late Lord Lister was educated at the College in the Faculties of Arts and Medicine from 1844 to 1853, taking his B.A. Degree in 1847 and his M.B. Degree in 1852. During his student career he gained many College distinctions and was an active member of the Debating Society. He was elected a Fellow of the College in 1861.

Shortly after his death a Lister Memorial Committee was appointed, but the completion of its work was delayed by the War.

The Memorial has taken the form of two Tablets executed in marble by Professor Havard Thomas, one of which has been erected in the lobby to the General Library of the College and the other in the vestibule of the Hospital.

The Unveiling of the Tablets was performed on 11th November, 1919. The President of the Lister Memorial Committee (His Grace the Duke of Bedford, K.G.) presided at the ceremony. The President of the Royal College of Surgeons (Sir George Makins) unveiled the tablet presented to the Hospital and the President of the Royal Society (Sir Joseph Thomson) that presented to the College. They were accepted by the Vice-Chancellor (Sir Edwin Cooper Perry) and Sir George Thane (Emeritus Professor of Anatomy) acting on behalf of the University and College, and by the Chairman of the Hospital Committee (Sir Ernest Hatch) and the Senior Surgeon of the Hospital (Mr. Raymond Johnson) acting on behalf of the Hospital and Medical School. The Treasurer of the Memorial Committee (Sir John Tweedy) conveyed the thanks of the Committee and subscribers to the Sculptor, and the proceedings closed with a vote of thanks to the Presidents of the Royal College of Surgeons and the Royal Society, moved by the Senior Physician of the Hospital (Sir John Rose Bradford).

THE ACADEMIC STAFF.

Appointments and Changes.

FACULTY OF ARTS.

Professor F. M. Simpson has resigned the Chair of Architecture, which he has held since 1903. He has been succeeded by Professor A. E. Richardson.

Professor Elsey Smith, who has been Professor of Architecture since 1913, when he was transferred to University College from King's College, resigned his Professorship at the end of the session.

Mr. Martin Shaw Briggs has been appointed Lecturer in Building Construction in the School of Architecture for three years from 1st September, 1919.

Mr. Daniel Jones has been re-appointed University Reader for five years from 1st September, 1919.

Dr. P. Geyl has been appointed to the newly-instituted University Chair of Dutch Studies tenable at University College and Bedford College.

Dr. O. H. Prior was appointed Lecturer in French, with special charge of Anglo-Norman Literature and French Composition for the current session. Dr. Prior has since been appointed Professor of French at Cambridge, and has intimated that he will be unable to continue to hold the Lectureship after the end of the present session.

Dr. Edmund Gardner has resigned his Readership in Italian on being appointed to the Chair of Italian Studies in the University of Liverpool, but arrangements have been made for his resignation not to take effect until the end of the current session.

Miss E. Jeffries Davis, formerly Assistant in the Department of English History, has been appointed Lecturer in English Historical Sources for three years from 1st September, 1919.

Mr. A. C. Wood, having returned from War Service, has been re-appointed Quain Student in English for two years dating from January 1919.

Dr. Rachel Reid has resigned her post as Assistant in the Department of English History on being appointed District Inspector under the London County Council.

Mr. J. W. Jeaffreson has been appointed Senior Assistant, and Miss B. J. Schlumberger Assistant, in the Department of French for the current session.

Mr. E. R. Adair, Miss Isobel Thornley, and Mr. J. E. Neale have been appointed Assistants in the Department of English History.

Miss Irene Curnow has been appointed Demonstrator in the Department of Economic Geography for the current session.

Mr. H. Chalton Bradshaw and Mr. E. P. B. Musman have been appointed Assistants in Architecture for the current session.

In the Slade School, Mr. C. K. Child, who has for many years acted as Private Secretary to the Slade Professor, has now been appointed Assistant. Mr. G. J. Charlton has also been appointed Assistant for the current session.

Miss H. Coustenoble, Miss M. Grémaud, and Miss I. C. Ward have been appointed Assistants in the Department of Phonetics for the current session.

Mr. R. T. Moore has been appointed Junior Assistant in the Department of Latin for the current session.

Mrs. G. Aitken has been appointed Honorary Assistant in the Department of Egyptology for the current session.

The following members of the Staff have been added to the Faculty of Arts:—Mr. E. R. Adair, Dr. F. Aveling, Dr. E. A. Baker, Mr. J. W. Jeaffreson, Mr. Arthur Stratton, and Mr. T. L. Wren.

FACULTY OF LAWS.

Professor J. H. Morgan has been re-appointed Professor of Constitutional Law for three years from 1st September, 1919.

Professor Sir John Macdonell has intimated to the Senate that he does not propose to seek re-election to the Quain Chair of Comparative Law when his present period of office ends on 31st August, 1920. The Senate have conveyed to Sir John Macdonell the great regret with which they have received this notification of his impending resignation, and their appreciation of his services during his occupancy of the Chair.

Mr. Sabonadière has been appointed Lecturer in Hindu and Mahommedan Law at University College and the School of Oriental Studies jointly for three years dating from 1st September, 1919, in succession to Professor J. W. Neill resigned.

Mr. A. Sabonadière has been appointed a member of the Faculty of Laws.

FACULTY OF SCIENCE.

Dr. Samuel Smiles, Assistant and Reader-designate in Organic Chemistry, resigned his post in August 1919 on being appointed to the Professorship of Chemistry at Armstrong College, Newcastle.

Dr. Oscar L. Brady has been appointed Lecturer in Organic Chemistry for three years dating from 1st September, 1919.

Dr. G. A. Buckmaster resigned his Readership in Physiology in August 1919 on being appointed to the Chair of Physiology at the University of Bristol.

Dr. R. H. Plimmer resigned his Readership in Bio-Chemistry in August 1919 on being appointed Bio-Chemist and Head of the Bio-Chemistry Department, Craibstone Research Institute for Animal Nutrition.

Dr. A. O. Rankine resigned his post as Assistant in the Department of Physics at the end of the Session 1918–19, on being appointed Professor of Physics at the Imperial College of Science and Technology.

Dr. Irvine Masson has been appointed Lecturer in Inorganic Chemistry for three years dating from 1st September, 1919.

Professor Vaughan Harley resigned in March 1919, the Chair of Pathological Chemistry, which he had held since 1896. The Senate resolved not to fill the vacancy in the Chair. The work of the Chair will be continued under Dr. Goodbody as Lecturer in Medical Chemistry in the Department of Chemistry.

Mr. J. C. Flügel resigned his Assistantship in the Department of Psychology at the end of the Session 1918–19. He has been appointed Lecturer in Psychology for three years from 1st September, 1919.

Dr. E. J. Salisbury has been appointed Lecturer in Botany for three years from 1st September, 1919.

Dr. Paul Haas has been appointed Lecturer on Plant Chemistry in the Department of Botany for three years from 1st September, 1919.

Mr. J. Bronté Gatenby has been appointed Lecturer in Cytology for three years from 1st September, 1919.

Mr. T. L. Wren has been appointed University Reader in Geometry.

Dr. J. C. Drummond has been appointed Assistant in Physical Chemistry. Mr. I. de B. Daly, Mr. R. K. Cannan, and Mr. G. V. Anrep have been appointed Assistants in the Department of Physiology for the current session. Miss H. Bainbridge has been appointed Demonstrator in Physiology for the Second Term of the current session.

Mr. G. A. Sutherland has been appointed Assistant in the Department of Physics, and Mr. L. H. Clark Demonstrator in the Department of Physics for the current session. Dr. Oxley has been appointed Temporary Assistant in Physics.

Mr. H. J. Evans, Mr. W. E. Garner, Mr. G. J. Jones, and Mr. L. F. Gilbert have been appointed Assistants in the Department of Chemistry for the current session.

Miss D. M. Wrinch and Mr. B. B. Baker, formerly Temporary Assistants, have been appointed Assistants in the Department of Pure Mathematics.

Mr. H. T. Jessop has been appointed Research Assistant and Demonstrator in the Department of Applied Mathematics and Mechanics.

Mr. J. H. Woodger and Miss Gladys E. Webb have been appointed Assistants in the Department of Zoology. Mr. J. T. Carter and Mrs. D. M. S. Watson have been appointed Honorary Research Assistants in the Department of Zoology for the current session.

Mr. E. C. Rhodes has been appointed Assistant and Mr. H. E. Soper Honorary Research Assistant in the Department of Applied Statistics and Eugenics. Miss M. Moul has been appointed Secretary of the Galton Laboratory.

Capt. Charles Badham was appointed Honorary Demonstrator in Zoology for the Third Term of the Session 1918–19.

The following Members of the Staff have been added to the Faculty of Science :—Mr. H. T. Davidge, Dr. J. C. Drummond, Mr. J. Bronté Gatenby, Dr. E. J. Salisbury, Dr. W. B. Tuck, and Mr. T. L. Wren.

Faculty of Medical Sciences.

Professor Sir George Thane resigned at the end of the session 1918–19 the Chair of Anatomy which he had occupied since 1877; he has been succeeded by Professor G. Elliot Smith, formerly Professor of Anatomy in the University of Manchester.

Mr. T. B. Johnston resigned his post as Demonstrator in Anatomy on his appointment to the Chair of Anatomy at Guy's Hospital.

Dr. D. E. Derry resigned his post as Demonstrator in Anatomy, Lecturer in Physical Anthropology and Curator of the Anatomical Museum in December on his appointment to the Chair of Anatomy in the Medical School at Cairo.

As a result of these resignations, the Staff of the Department of Anatomy has been reconstructed. Lt.-Col. Herbert Woollard has been appointed Demonstrator in Anatomy. Mr. Raymond Dart has been appointed Curator of the Anatomical Museum and Demonstrator in Anatomy.

Professor A. J. Clark, formerly Professor of Pharmacology in the University of Cape Town, has been appointed Professor of Pharmacology in succession to Professor A. R. Cushny resigned.

Mr. J. W. C. Gunn has resigned the post of Assistant in the Department of Pharmacology on being appointed Professor of Pharmacology in Cape Town University in succession to Professor Clark.

Dr. W. W. Jameson resigned his post as Assistant in the Department of Hygiene at Christmas. Mr. M. E. Delafield has been appointed as his successor.

The following Members of the Staff have been added to the Faculty of Medical Sciences:—Dr. J. C. Drummond and Mr. J. H. Woodger.

Faculty of Engineering.

Mr. M. T. Ormsby has been appointed Reader in Surveying for four years from 1st September, 1920.

Mr. E. C. Hawkins has been appointed Lecturer in Electrical Design for the current session.

Dr. W. J. Goudie resigned his post as Reader in the Theory of Heat Engines at the end of the session 1918–19 on his appointment to a Lectureship in the University of Glasgow.

Dr. J. G. Stewart has been appointed Lecturer in Civil and Mechanical Engineering for three years from 1st September, 1919.

Mr. D. Cameron has been appointed Demonstrator in Civil and Mechanical Engineering for the current session.

Miss Gwenneth Haigh and Miss Mabel Slater have been appointed Research Assistants in the Sub-Department of Heating and Ventilating Engineering.

The following Members of the Staff have been added to the Faculty of Engineering:—Mr. H. J. Evans, Mr. H. J. Harris, and Dr. J. G. Stewart.

ADMINISTRATION.

Owing to illness, the Registrar was absent during the major portion of the First Term. Her work was effectively carried on by Miss Whitehead, who has now received the status of Assistant Registrar.

Miss Dorothy Measures, B.A. (a former student) has been appointed Publications Secretary *vice* Miss Dorothy Jones, resigned.

Mr. B. N. Parker, B.A.(War) (a former student) has been appointed an additional Private Secretary to the Provost.

Mr. Harold Marklew has been appointed Cashier *vice* Mr. Murdoch, resigned.

Mr. E. Fitzgerald has been appointed Senior Clerk.

Miss Alder has received the status of Assistant Accountant.

THE WORK OF THE FACULTIES.

The report presented by the Provost at the Assembly of Faculties last July deals with the chief events of the Session 1918–19. This report, together with the address delivered on that occasion by Sir Auckland Geddes, K.C.B., M.D. (Principal-Elect of McGill University, Montreal), who received the scholars, medallists, and prizemen, is printed in the Calendar for the current Session.

Very shortly after the cessation of hostilities on November 11th, 1918, members of the staff and students began to return to the College as they were released from War Service. At the opening of the Second Term of last session, 562 students were admitted or re-admitted to the College. In order to provide for the needs of these ex-service students, additional courses were instituted. Arrangements were made under which it became possible for ex-service men to get in a whole session's work between January and the end of July by working through parts of the Easter and Long Vacations. These arrangements entailed a heavy tax upon the members of the academic and administrative staffs; they proved most acceptable to the men. The University arranged additional examinations, the result being that, with only a few exceptions, the men who came back in January were in a position by the end of the session to proceed to more advanced work.

The Government scheme of grants for ex-service men has enabled many whose work had been disturbed by the War either to resume or to begin their University training. The scheme has been highly appreciated and, although the cost of it to the country has exceeded the original estimate, the result of it will be to equip men for the service of the country who otherwise would have been forced to enter upon their work in the world only half trained.

In the Second and Third Terms of the Session 1918–19, members of the American Expeditionary Force joined for short Courses of study at the College. The total number admitted was 129. Many testimonies to the value of their work and experience while at the College have been received from these students, and the intercourse with them has had a beneficial effect in widening the interests of the regular students.

Research work was maintained as far as possible. A list of publications for the two years 1917–18 and 1918–19 will be found in Appendix V. (pp. 57–71).

In the course of the Session 1918–19 the various Public Lectures were attended by nearly 6,000 persons. The following is a list of the Public Lectures that have been arranged since the issue of the last Report:—

By members of the College Staff:

Professor A. J. Toynbee.	"The Geography of Greece."

The following brief summary of matters supplementary to the statement contained in the Report presented at the Assembly of Faculties is given here to make the record of the year as complete as possible:—

FACULTY OF ARTS.

School of Librarianship.

The work of the new School of Librarianship, instituted by means of funds provided by the Carnegie Trustees, was formally opened with an address by Sir Frederick Kenyon, of the British Museum, in October. A Committee, consisting of representatives of the Council of the Library Association and of the University, has been appointed to administer the work of the School. The names of the members of the staff, working under the Directorship of Dr. Ernest Baker, and the branches of teaching, are given on p. 7. The number of students enrolled in the School is 88, of whom 34 are full-time Diploma students. The Public Lectures that have been arranged are stated above.

Courses for Journalism Students.

Students working for the newly-instituted Diploma in Journalism have been admitted to all courses that meet their needs, and special courses have been arranged for them in the Departments of English and Philosophy.

History.

With the object of promoting further provision for Advanced Historical Studies, the need for which was emphasised in the July Report, an Intercollegiate Committee has been formed, consisting of representatives of University College, King's College, and the London School of Economics; it is about to issue a report suggesting a scheme for the further promotion of post-graduate historical studies. Dr. A. P. Newton having been appointed to the Rhodes Chair of Imperial History at King's College, his lectureship at the College lapses. The benefaction of the Carnegie Endowment for International Peace mentioned on p. 34 will, it is hoped, prove a great stimulus to the development of teaching and research in American History. The growth of the Evening School is referred to in detail on p. 47.

Dutch Studies.

Professor Geyl delivered his Inaugural Address as Professor of Dutch last October; he has arranged to give a Course of Public Lectures on "Holland and Belgium; an outline of their common history and their relations" and a Course on "The Constitution of the Dutch Republic" during the current term. The Senate will shortly proceed to make an appointment to the Readership.

Scandinavian Studies. As a further development of the work of this Department, Certificates in Danish, Norwegian and Swedish, similar to the Certificates that already exist in French, German and other languages, will be established as from 1921. The arrangement under which Professor Ker acts as Director of the Department, and Mr. Helweg, Mr. Gröndahl and Mr. Björkhagen as Lecturers respectively in Danish, Norwegian and Swedish has been continued for the current session.

French. As a result of over-strain during the War, Professor Brandin has been forced to take a long rest. The work of the Department is being conducted in his absence by the members of the staff assisted by Dr. Mary Williams and Mr. Stéphan, who conducts French Conversation Classes. Dr. Prior is, happily, able to combine with the work of his Chair at Cambridge weekly lectures at the College, and is giving a Course on Anglo-Norman Language and Literature. It is earnestly hoped that Professor Brandin will speedily be restored to complete health and strength and so be able to resume the work of his Chair.

Phonetics. This Department has also been deprived of its Head for a time. Mr. Daniel Jones has worked too arduously and has had to apply for leave of absence for the current term. Miss Armstrong is acting as Head of the Department and, by means of additional assistance, is carrying on the full programme of work. The work in Phonetics is, thanks to the energy and whole-heartedness that Mr. Jones has always given to it, so progressive that its leader is greatly missed and his return in full vigour will be welcomed. Two Vacation Courses, one in Spoken English, the other for Teachers of French, were organised in the Summer and one in Spoken English in the Christmas holidays.

Celtic. The work of this Department fell into abeyance during the War. It has now been revived, and Mr. R. Flower, M.A., of the British Museum, has formed Classes in Irish this session.

The Bartlett School of Architecture. The promise of success for the School of Architecture that came in 1914 with the amalgamation of the King's College and University College Schools and the provision of the new building by Sir Herbert Bartlett, Bt., was for the time destroyed by the War. But the work of the School was maintained throughout under the skilful direction of Professor Simpson, to whom a resolution acknowledging his great services was sent on his resignation at the end of last session. The title of Emeritus Professor of Architecture has been conferred upon him. Professor Elsey Smith, who had been Assistant Professor under his father, the late Professor Roger Smith, and later Professor at King's College, and has been responsible for the Building Construction work since the amalgamation of the two schools, decided to give up active teaching in the School at the same time as Professor Simpson. The School began to fill up in January 1919: there are now 72 students in the Day School and 43 in the Evening School. Professor Richardson has entered on his work with great vigour, and he is planning several new developments. The School still has the benefit of the services of Mr. Arthur Stratton; the other members of the staff (p. 5) have all begun their work this Session.

In recognition of Sir Herbert Bartlett's great gift of the building and much of the equipment, the Senate have, with his consent, named the School after him.

The extension of the Slade School by the addition of rooms formerly forming part of the old Chemistry Department was carried out during the last Long Vacation. The new Sculpture Studios, constructed on the site of the old Chemistry Laboratory, mainly from funds provided by Sir Herbert Bartlett, were ready for use just after the opening of the Session. Notwithstanding this enlargement, the School is quite full; many well-qualified students have not been able to find places. The Slade School.

The activity of the School is very great At the Exhibition of War Pictures at the Royal Academy, it is represented by works of Professor Tonks and the following past and present members of the staff:—Sir George Frampton, Dr. D. S. MacColl, Major Ambrose McEvoy, Mr. Joseph Pennell, Mr. A. T. Porter, Mr. Walter W. Russell, Mr. P. Wilson Steer, and of thirty-seven past and present students.

FACULTY OF SCIENCE.

The need for more extensive accommodation for most of the Departments of this Faculty has been very acutely felt this session, and many applications for admission have had to be refused on this account. One of the Arts Class Rooms has been allocated entirely to the Department of Geology. Applied Mathematics has moved into its new quarters in the Old Chemistry Department, and Applied Statistics and Eugenics has been in possession of its new building since the opening of the session.

In recognition of the munificent gift of £34,500 given by Sir Ralph Forster to the Chemistry Building and Equipment Fund, the Senate have named the Organic Department of the new Chemistry Laboratories "The Ralph Forster Organic Chemistry Laboratories." It is a matter of satisfaction to the Committee that the name of this generous benefactor should thus become permanently associated with the Department of Chemistry. Professor Donnan has now resumed the work of his Chair after a leave of absence extending over the greater portion of last session.

The Scientific departments have continued to co-operate actively with the Department of Scientific and Industrial Research for Great Britain and Ireland. Members of the staff and research students are conducting by the aid of grants special researches in Applied Statistics, Applied Mathematics and Mechanics, Chemistry, Geology, Palæobotany, Physics, and Zoology.

FACULTY OF MEDICAL SCIENCES.

Sir George Thane's resignation of the Chair of Anatomy, which he had occupied since 1877, took effect at the end of the Session 1918–19. On receiving it, the College Committee adopted the following resolutions, which were subsequently concurred in by the Senate :—

(*a*) That the College Committee have learnt with the greatest satisfaction of the intention of His Majesty the King to confer upon Professor Thane the honour of Knighthood. They desire to tender their warm congratulations to Professor Sir George Thane on this well-earned recognition of his services to education, learning, and the College.

(*b*) That the University College Committee desire to place on record their high appreciation of the long and valuable services

of Professor Sir George Thane to education, learning, and the College.

(*c*) As Professor of Anatomy since 1877, he has lent distinction to the School of Medicine; as counsellor he has been a source of strength in academic affairs; as Sub-Dean of the Faculty of Medicine, and as Dean of the Faculty of Medical Sciences, his precise attention to business, and his personal interest in the affairs of students have made for efficiency and corporate strength.

(*d*) The College Committee learn with much regret that, in Professor Sir George Thane's opinion, the time has come for him to resign his Chair; they wish him and Lady Thane many years to come of greater leisure, and they rely upon him for help and counsel in the future conduct of the College.

The title of Emeritus Professor of Anatomy was conferred upon Sir George Thane in July 1919.

His successor, Professor Elliott Smith of the University of Manchester, began work at the opening of the current session. The development of the Department is hampered by lack of space, and the provision of an Institute of Anatomy has now become one of the most urgent immediate needs of the College.

The Chair of Pharmacology has been vacant since the resignation of Professor Cushny at the end of the Session 1917–18. It has been filled by the appointment of Dr. A. J. Clark, who was formerly an Assistant in the Department, but left the College to become Professor of Pharmacology in the University of Cape Town.

FACULTY OF ENGINEERING.

Owing to lack of sufficient accommodation, nearly one hundred applications for admission to the Faculty have been refused. An additional lecture room has been provided in one of the rooms vacated by the Department of Applied Statistics and Eugenics, but until the Engineering Appeal has been successfully made the demands for increased space and development cannot be adequately met.

The news of Professor Fleming's serious illness has been received with universal regret and an improvement in his condition is anxiously awaited.

By the resignation of Dr. W. J. Goudie, the Faculty has lost a valuable member, whose long experience and devotion to work have proved of inestimable value to his colleagues and students.

The office of Sub-Dean of the Faculty has been instituted, and Mr. Clinton has been appointed thereto.

In the Departments of Electrical and Mechanical Engineering research work is being conducted in co-operation with the Department of Scientific and Industrial Research.

THE LIBRARIES.

The accessions to the Libraries during the year amount to 3,067 volumes and 1,116 pamphlets. Of this number 2,358 volumes and 926 pamphlets have been presented. These totals include 99 additions to the Mocatta Library, 3 by purchase and 96 by presentation. A list of donors is given on pp. 53–55. Special thanks are due to Professor Ker for a donation of £100 for the purchase of Scandinavian books. A portion of this donation has been used for the purchase of

the library of the late Mr. Braekstad. The bequest of £20 from the late Mr. F. Hodson is being spent on books on radiation and the relativity problem.

Other donations of special value include sets of the publications of the Bibliographical Society, and of the Worcestershire Historical Society, the Staffordshire Historical Collections, and other important books from Sir John F. Rotton; a collection of archæological books and pamphlets from Professor E. A. Gardner; a large number of the propaganda publications presented by the News Department of the Foreign Office; many valuable books from Lord Reay; a collection of mathematical and physical books, formerly the property of the late Mr. Sydney Lupton, presented by Miss Lupton; and a further portion of the Hebrew collection of the late Dr. C. D. Ginsburg, presented by his executors.

The library has again been indebted to Mrs. Pollard for her valuable voluntary assistance during the year.

Mr. R. Offor resigned his position as Senior Assistant Librarian on September 30th, on being appointed Librarian to the University of Leeds. Mr. W. Bonser has been promoted to fill the vacancy caused by Mr. Offor's resignation.

The Science Library has been rearranged, and many of the more valuable or less used books have been removed to store, or placed in locked cases in the Library.

The urgent reorganization of a large portion of the Library has again been hampered by the lack of space. As a temporary expedient, a store has been made in the centre of the Science Library.

The exchange of books on loan between the School of Oriental Studies and the Libraries of the University is proceeding.

During the third term of the Session 1918–19 a number of graduates of American Universities, who were serving in the American Army, were given keys of the Science and the Arts Libraries. The privilege of consulting books in the Library has been granted to members of the Philological Society.

During the Session 1918–19, 161 students held keys of the Science Library, and 189 of the different Arts Libraries. The number of books issued for home reading was 4,028.

EVENING AND VACATION LECTURES AND MEETINGS.

The evening activities of the College are steadily increasing, so that the buildings are now open on five evenings of the week for the purpose of special work, mainly of a post-graduate character.

History. The Evening and Post-graduate School of History grows year by year. In addition to the Director, Professor Pollard, there are now seven members of the Academic Staff who take an active part in it. The number of students in the School in the Session 1918–19 was 132, in the current session it is 162. The number of applications exceeded the number of places by nearly fifty per cent. The work of the School is highly appreciated by school teachers and specialists in History.

Geography. The Evening School of Geography is now becoming known and is attracting a large number of students. In the case of this School also the number of applicants was far in excess of the number of places.

Phonetics.

The Evening School of Phonetics and of Spoken Language grows year by year also. The Reader in Phonetics, Mr. Daniel Jones, now has the help of ten assistants, but in spite of this the work has involved a heavy strain upon him.

The meetings of the Philological Society, the Geologists' Association, the Jewish Historical Society, the Jewish Students' Union, the Folk Lore Society, and the Law Students' Society are held regularly in the College.

In addition to these, learned Societies, including the Classical Association, the Montessori Society, and the School Nature Study Union, have met from time to time at the College. In January, the Eighth Annual Conference of Educational Associations was held at the College.

STUDENTS' SOCIETIES.

With the return of men from War service and the advent of large numbers of ex-service men, the growth of the Union Society in numbers and activity has been great. The Annual Report issued for last session shows a membership of 671; at the present stage of the current session this figure has risen to 915. For the first time since the outbreak of war, Foundation Week was fully celebrated in March 1919. Mr. Ronald McNeill, M.P., delivered a brilliant Oration on "The Riddle of Ireland": the Dramatic Society, in conjunction with the Entertainments Committee, produced three short plays, "The Twelve Pound Look," "The Will," both by J. M. Barrie, and "Rosencrantz and Guildenstern" by W. S. Gilbert. The Foundation Dance and Dinner were also successfully organised. An auspicious revival of the Annual Athletic Sports took place in May at the Athletic Ground. The weather was very fine and, in the presence of about four hundred guests, some brilliant events were achieved, the Majority Challenge Cup being won by the Engineers.

The Women's Union Society records a membership this session of 501. The endeavour to raise a fund to endow a hospital bed in connection with the Garrett Anderson Memorial Scheme has resulted up to the present in a sum of £894. The social and athletic side of the Society are in a flourishing condition, the latest development of the Athletic Union being the affiliation of a Lacrosse Club.

Co-operation between the two Union Societies is being developed by means of an Inter-Union Standing Committeee, under whose auspices inter-Union Dances have been arranged and the first number of an Inter-Union Magazine has been issued. The Organization of the Foundation Play and Dance will be in the hands of this Committee.

The Debating, Orchestral, and Dramatic Societies have held successful meetings, one of the plays produced by the latter Society, "The Return of Pierrot," being the original work of Miss Guest, a student of the College. The Musical Society was fortunate in being able to start the session with a Recital most kindly given by Mr. Gervase Elwes. The Literary and Historical Societies have regular meetings, and the Ancient History Circle continues to receive enthusiastic support.

An addition to the Special Students' Societies has been made by the formation of a Welsh Society.

The Old Students' Association has held a Dinner this session and has felt the benefit of having its own room on the College premises. By means of this Association, working in co-operation with the Guild of Graduates, former students are kept in touch with the College.

THE HALLS OF RESIDENCE.

The Halls of Residence are both full.

College Hall, Byng Place, cannot provide sufficient accommodation to meet the number of applications for residence, even with the annexe that has been opened.

In view of the numerous applications for residence, chiefly from Ex-Service Officers, the accommodation at University College Hall has been increased by the provision of an annexe. The house immediately adjoining the Hall has been secured on lease and will accommodate twelve residents. Dr. Seton has resigned the bursarship of the Hall for the present session and Mr. J. Richard Gammell has been appointed as his successor. The social amenities of the Hall have been greatly increased by the provision of a hard tennis court, towards the cost of which grants have been made from the Crabb Robinson Trust and by the Ealing Hall Association.

THE CRABB ROBINSON FUND.

During the financial year 1918–19, the following grants were made from the Income of the Crabb Robinson Fund :—

The Union Society—towards Rent Charges on the Athletic Ground, £75; *The Women's Union Society*—towards Rent Charges on the Women's Athletic Ground, £50; *University College Hall, Ealing*—towards the Library, £5; *College Hall, London*—towards a Piano, £10; towards a Mudie's Library Subscription, £3 10*s*.

The following grants have already been made during the current financial year :—

The Union Society—towards Rent Charges on the Athletic Ground, £75; *The Women's Union Society*—towards Rent Charges on the Women's Athletic Ground, £50; *University College Hall, Ealing*—towards a Hard Tennis Court, £75; towards the Library, £5; *College Hall, Byng Place*—towards a Tennis Court, £20; towards the Library, £4 10*s*.

THE PEEL FUND.

The income of the Peel Fund was expended in grants for the purchase of books made to the following Institutions :—

The Brampton Institute, Hunts, £4; The Camden Town Employment Exchange Juvenile Reference Library, £6; The William Knox Institute, Kilbirnie, Ayrshire, £5; The Kildwick and Farnhill Institute, Yorks, £5; the Tylerstown Library and Institute, S. Wales, £4; The Working Men's College, Crowndale Road, London, £6.
